

ATM Part Sales

We are a world leading supplier of ATM parts and modules, and have been helping our customers build better businesses for over 25 years. With operations in Europe and North America and over \$7 million of inventory held, we help hundreds of customers all over the world source their NCR, Wincor and Diebold parts and spares.

Availability

Our approach to availability is simple. We work directly with our customers to understand their requirements and establish guaranteed levels of availability for the items they need the most, making sure that we are able to anticipate their requirements in advance.

New Technology

The introduction of new technology, such as new PCs, card readers and intelligent

“...we help hundreds of customers all over the world source their NCR, Wincor and Diebold parts and spares.”

depository modules require you to make sure you have an adequate supply of parts and modules to support them. This new technology can be hard to source, with limited volumes available on the market at any one time.

TestLink's purchasing teams are experts at sourcing of ATM parts and modules, even those which others find hard to procure. Over the past 25 years we have built up a formidable network of suppliers, allowing us to offer high availability levels on parts that other suppliers find hard to match.

We speak your language

We have dedicated teams of language professionals who specialise in most European and Slavic languages, and who

At a Glance

- Over 10,000 lines held in our warehouses
- Over 2,500 customers served in over 65 countries around the world
- Inventory holdings of over \$7 million

Benefits

- All parts are sold to the OEM standards or above
- 90-day 'no-quibble' guarantee
- Guaranteed levels of availability

are capable of talking in both the language of your business and the language of your country.

90 Day Guarantee

Unlike many of our competitors, we are so sure of the quality of our products that we are able to offer this simple guarantee: If the quality of the parts we supply are not up to the high standards you can normally expect from us, we will let you return the item for up to 90 days after the initial purchase with no questions asked.

Distribution

As an international business that serves many customers who also operate internationally, we understand the importance of having a supplier who can support you from anywhere in the world.

With major operations in both Europe and North America, we are able to use our network to distribute any ATM part to anywhere in the world, without punishing lead times and overbearing costs.

Technical Support

With each of the manufacturers constantly releasing new

technology, changing part numbers and bringing older generation parts to the end of their life, keeping up with the constant pace of change can add an extra layer of unwanted complexity to your business and get in the way of you being able to focus on increasing profitability and deliver great customer service.

To help you work through this complexity, TestLink offer an unparalleled level of technical support, and we pride ourselves on the wealth of technical information we make available to our customers.

ATM Catalogue

To help you identify parts, look up part information and access information such as part diagrams, module identification factsheets and buyers guides for the most popular ATMs, we provide our full ATM Parts Catalogue online for free.

Popular worldwide, our ATM Parts Finder Website is one of the most visited sites in our industry, and receives thousands of enquiries every day from customers who need to find out more about the parts they're working with.

“...we provide around the clock support that’s accessible in whichever way is most convenient for you.”
