

**ATM Sales**

Where the requirement for new ATM technology (such as intelligent depository) is not a necessity then purchasing a remanufactured ATM makes sense - comparable in terms of reliability and much more customizable, remanufactured ATMs are a like for like alternative that provide cost savings of **up to 70% less than new**.

TestLink are a leading provider of remanufactured ATMs, and are able to provide remanufactured ATMs that are tailored to your exact needs and specific requirements.

**Remanufactured ATMs**

In order to ensure that our remanufactured ATMs are as reliable as new, we put them through a comprehensive remanufacturing process

**“We understand that our customers know exactly what they need, and we work to match our customers with the ATMs which are the best fit for their business.”**

that has been developed over 25 years - making sure that every major module is removed from the ATM and stripped down, cleaned and rebuilt.

During the rebuild, TestLink incorporates mandatory preventative maintenance, replacing parts which are known to be unreliable cause early life failures. The exterior is then completely resprayed and new branding applied, resulting in the ATM looking and performing as well as it did when it was originally manufactured.

**Benefits**

- Lower cost than buying new - up to 70%
- Provision of a complete managed ATM installation program using refurbished ATM's
- Maintain a standardized ATM estate - easier to maintain
- Environmentally friendly as reutilizing existing assets
- Upgrading means no compliance issues

Our processes not only ensure the ATM is serviceable when it gets to site, but also that the many small items needed to ensure the ATM can go live are delivered too (i.e software loads, cables, bolts, collar kits etc.).

### Upgrades and Compliance

As part of the remanufacturing process the ATM is generally upgraded to the customer's requirement in terms of core and other modules.

### Installation and Commissioning

TestLink are able to provide services to manage the planning, installation and commissioning of your ATM as part of our overall managed services.

### NCR, Wincor and Diebold ATMs

We specialize in refurbishing and remanufacturing NCR, Wincor and Diebold ATMs, which together comprise over 75% of all ATMs worldwide. Unlike other providers, we are totally independent and able to support all OEMs without compromise.

“With distribution hubs across the world, we are able to supply ATMs to any international location - with short lead times and at reasonable prices.”
